RawlGRINDER R-PAG-1251500V

ANGLE GRINDER
125 mm 1500 W

The R-PAG-1251500V angle grinder, thanks to its powerful 1500 W W motor, ensures high work efficiency while maintaining compact size and light weight of the device.

CE

FEATURES AND BENEFITS

- Safe slide switch preventing the power tool from being accidentally switched on
- Powerful 1500 W motor ensures high efficiency of the mechanism and increases the life time of the tool
- Soft start increases user comfort
- The angular gear modes are made of high quality steel, which guarantee the durability of the device
- The rotational speed control facilitates the selection of appropriate operating parameters, depending on the accessories used
- Rubberised, profiled handle increases grip and user ergonomics
- Compact size and lightweight construction prevent rapid fatigue

BASE MATERIALS

- Steel
- Stainless steel
- Ceramic materials
- Concrete
- Brick
- Wood

RawlGRINDER R-PAG-1251500V

ANGLE GRINDER
125 mm 1500 W

The R-PAG-1251500V angle grinder has a sophisticated and durable construction which is resistant to dust and long-term work under load.

APPLICATIONS

- Timber constructions: Debarking/grinding wood
- Grinding and cutting of stainless and carbon steels
- Grinding and cutting of concrete and reinforced lintels
